GENERAL INTRODUCTION

The aims of teaching English as a foreign language at secondary level are as follows :

- ☞ to help the learners achieve the necessary language proficiency to meet the requirements of the English Baccalaureate paper ;
- ☞ to enable the learners to communicate with other users of English, either in speaking or in writing. Hence the necessity to train the learners to use their knowledge of the language system in the skill areas of listening , speaking, reading, writing and combinations of these skills ;
- ☞ to familiarize the learners with the language system of English, and therefore to enhance their awareness of the specificity of their own language ;
- ☞ to help them develop an awareness of cultural differences and hence of their own cultural identity ;
- ☞ to promote understanding of other cultures ;
- ☞ to enable the learners, in the course of post secondary education or training to use reference material in English ;
- ☞ to meet the needs of the job market ;

In order to meet these aims, a set of fluency -and accuracy – based activities, among other things, has been suggested for each year of secondary education . It is hoped that in the final year of secondary education the students will be both fluent and accurate in their dealing with various materials including culturally-oriented texts.

- How will I be assessed?

1- Through semestrial exam.

2- Through classroom tests which is composed of:

- Three written examinations per semester.

- Verbal skills.

- Homework.

- Calculating termly average concerning classroom tests (m):

Consider that:

- **Nd** is written examinations average.

- **No** verbal skills mark.

- **Ni** homework mark.

Therefore, classroom tests average will be:

$$m = \frac{(Nd \times 3) + No + Ni}{5}$$
